Giveaway

Win authentic TU Delft honey!

Did you know that thousands of bees are hard at work above the TU Delft Aula? Together with hobby beekeeper Bart Boogmans, students and staff harvest honey from the campus every year.

The honey is carefully removed from the combs, extracted, and bottled. Starting Monday, September 7th, these jars will be available for € 6.50 at the Service Desk of the Aula Conference Center. There is a limit of one jar per person, and supplies are limited.

Prometheus is giving away a few jars to our members! Would you like a chance to win a jar of authentic TU Delft honey? Then enter our giveaway!

3e

The World Cup Pool is already behind us, but of course we'd still like to put the winners in the spotlight! With more than 200 participants taking part, the competition was fierce. After plenty of predictions, cheering, and sometimes a little luck, these three participants came out on top:

- 1. Remco Vroegop | A bol.com gift card worth €50 and the Prometheus Cup
- 2. Charlotte Oosterom | A Prometheus snack package worth €25
- 3. Sandra van Schie | A Pathé gift card

Congratulations on your prizes! And of course, thank you to everyone who participated.
